

2020 Indiana Legislative Bills Relevant to Environmental Health

Submitted by the General Environmental Health Services Committee
v. 04/02/2020—FINAL VERSION

SB 1: Tobacco and vaping smoking age.

Authored by: Sen. Ed Charbonneau.

Digest: Tobacco and vaping smoking age. Prohibits a person who is less than 21 years of age from buying or possessing: (1) tobacco; (2) e-liquids; or (3) electronic cigarettes. Makes conforming changes regarding enforcement provisions, sales certificates, prohibition of delivery sales, and notices posted at retail establishments and at vending machines.

Provides that a retail establishment that sells an e-liquid to a person less than 21 years of age is subject to a civil judgment for an infraction. Doubles the civil judgment for an infraction for: (1) a retail establishment that sells or distributes tobacco, an e-liquid, or an electronic cigarette to a person less than 21 years of age; and (2) certain retail establishments that allow an underage person to enter their establishment. Modifies the time frame for when retail establishments may receive enhanced penalties for repeat e-liquid and tobacco products violations. Requires a merchant who mails or ships cigarettes as part of a delivery sale to use a shipping service that requires a customer to present identification if they appear to be less than 30 years of age. Provides that a tobacco sales certificate (certificate) may only be issued to a person who has not had an interest in a certificate revoked by the commission for a business location within one year. Makes it a Class C misdemeanor if a tobacco and vaping business operates within 1,000 feet of a public or private elementary or secondary school. Provides that a retail establishment in which tobacco products, electronic cigarettes, and e-liquids account for at least 85% of the retail establishment's gross sales: (1) may not allow a person who is less than 21 years of age to enter the retail establishment; and (2) is not subject to a statute prohibiting sales of tobacco or electronic cigarettes through a self-service display. Makes it a Class B infraction for a person to knowingly sell tobacco, an e-liquid, or an electronic cigarette that contains vitamin E acetate. Makes technical corrections.

SB 100: *Nonconforming structures.*

Authored by Sen. Blake Doriot.

Digest: Nonconforming structures. Provides that the parcel owner shall be allowed to reconstruct, repair, or renovate the nonconforming structure if the reconstruction, repair, or renovation meets certain requirements. Specifies that the bill's provision regarding the reconstruction, repair, or renovation of a nonconforming structure does not apply to a nonconforming structure that is: (1) subject to the jurisdiction of a preservation commission; or (2) located within a flood plain.

SB 229: *Maintenance of regulated drains.*

Authored by Sen. Victoria Spartz.

Digest: Maintenance of regulated drains. Provides that a permit is not required from the Indiana department of environmental management for the maintenance or reconstruction of

a regulated drain in accordance with certain best management practices for purposes of the law concerning state regulated wetlands, as long as the work takes place within the current easement and the reconstruction does not substantially change the characteristics of the drain to perform the function for which it was designed and constructed.

SB 254: Water and wastewater utilities.

Authored by Sen. Ed Charbonneau, Sen. Eric Koch, Sen. Susan Glick.

Digest: Water and wastewater utilities. Amends the law allowing the adjustment of a water or wastewater utility's rates and charges to enable the utility to recover the cost of eligible infrastructure improvements, by providing that the general maximum limit on the revenues

used in determining the adjustment does not apply to infrastructure improvement costs associated with the construction, reconstruction, or improvement of a highway, street, or road. Amends the law that allows a public water utility to treat the costs of replacing customer-owned lead service lines as eligible infrastructure improvements for which a utility's rates and charges may be adjusted, by providing that the law applies to municipally owned utilities as well as public utilities. Establishes a procedure under which a public utility, municipally owned utility, or not-for-profit utility that provides water or wastewater service to the public and is under the jurisdiction of the commission for the approval of rates and charges may seek to recover, through a periodic rate adjustment, the cost of certain utility plant or equipment expenditures that are related to compliance with environmental requirements or made for health, safety, or environmental protection purposes.

HB 1210: Various health matters.**Authored by Rep. Dennis Zent.**

Digest: Various health matters. Establishes penalties for intentionally interfering with an investigation and enforcement of a home health agency by the state department of health (department). Allows the department to use the immunization data registry to store and release nonimmunization personal health information. States that a responsible member of a family may release a deceased patient's medical records if the deceased patient does not have a surviving spouse or child or a personal representative of the estate. Allows mental health records to be disclosed without the consent of the patient for research purposes by rules of the Indiana archives and records administration and the oversight committee on public records. Allows health records to be disclosed by the Indiana archives and records administration to another provider or nonprofit research organization (current law is a nonprofit medical research organization) in connection with a scientific, statistical, or education project. Changes the title of a "certified food handler" to "certified food protection manager" (CFPM). Repeals the definition of "food handler". Requires a CFPM to provide certain documents to the food establishment and obtain a valid certificate every five years. Prohibits using the title "certified food protection manager" unless the person holds a certificate. Provides that a CFPM may be required to be present during all hours of operation if the department and food establishment agreed upon a variance concerning the requirements for the operation of the food establishment. Amends the establishments that are exempt from the certified food protection manager requirements. Establishes new

penalties. Provides for the transition of an existing certified food handler to a certified food protection manager. Makes conforming changes.

HB 1265: Drinking water testing.

Authored by Rep. Carolyn Jackson.

Digest: Drinking water testing. Requires each person or entity having authority over a school building to test the drinking water in the school building before January 1, 2023, to determine whether the drinking water equals or exceeds the action level for lead of 15 parts per billion. Provides that the testing requirement is satisfied if the drinking water of a school building: (1) was tested during the lead sampling program for school buildings conducted by the Indiana finance authority (IFA) in 2017 and 2018; (2) is tested in the lead sampling program conducted by the IFA in 2019 and 2020; or has otherwise been tested for compliance with the federal drinking water standards at least once since 2016. Requires that drinking water in school buildings located in Lake County be tested at least once in each period of two calendar years beginning in 2023. Provides that if a test of the drinking water of a school building indicates the presence of lead in the water equal to or greater than 15 parts per billion, the person or entity having authority over the school building is required to take action to reduce the lead levels in the drinking water to less than 15 parts per billion. Provides that the person or entity having authority over a school building that is subject to drinking water testing is required to seek state and federal money that is available for lead sampling or testing.

HB 1309: Department of environmental management.

Authored by Rep. David Wolkins.

Digest: Department of environmental management. Revises references to federal regulations relating to variances from water quality standards. Provides that a variance from a water quality standard issued for a period of more than five years must be reevaluated in accordance with the requirements of the federal rule on variances from water quality standards. Provides that a variance relating to an NPDES permit may be submitted at any time before or after the issuance, renewal, or modification of the NPDES permit. Eliminates the requirement that the department itself, at least once per year, administer a certification examination for operators of water treatment plants, water distribution systems, and wastewater treatment plants. Requires instead the department to ensure that the examination is administered at least once per year, and allows the examination to be administered by independent third parties authorized by the commissioner of the department

HB 1334: Radon mitigation.

Authored by Rep. Sean Eberhart.

Digest: Radon mitigation. Provides the state department of health (state department) with emergency rulemaking authority to amend provisions in the state department's administrative rules concerning radon. Requires the state department to amend provisions in the state department's administrative rules concerning radon using the regular rulemaking process before December 31, 2021. Provides that the provisions added by the bill expire July 1, 2022.
